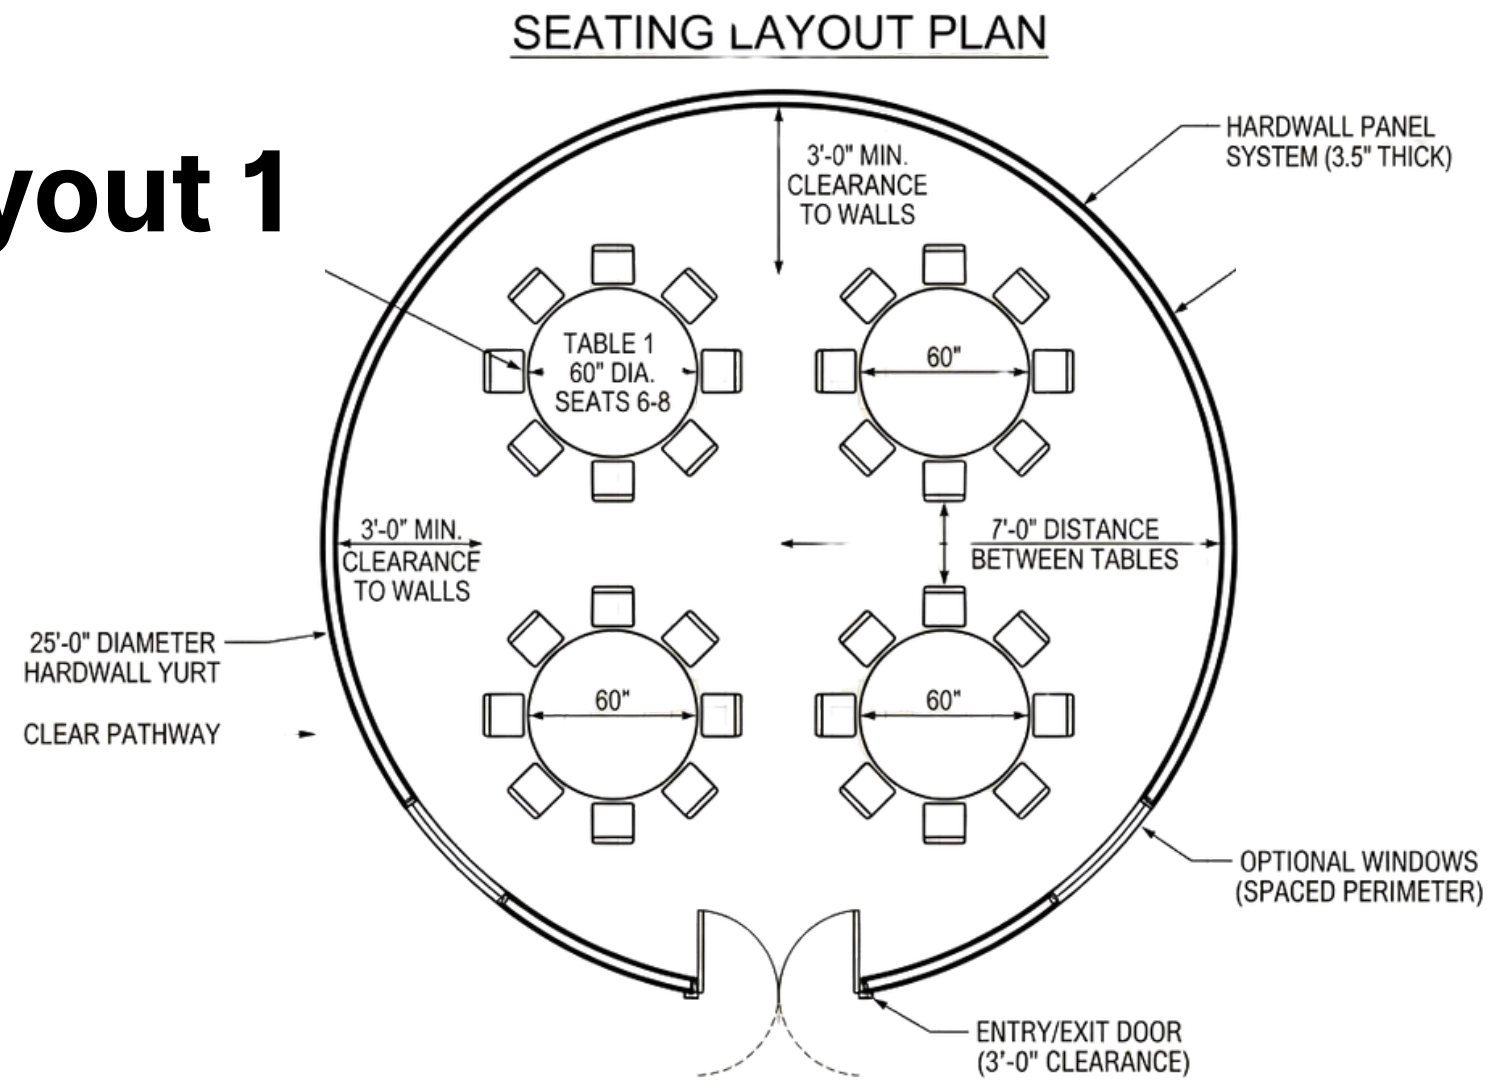
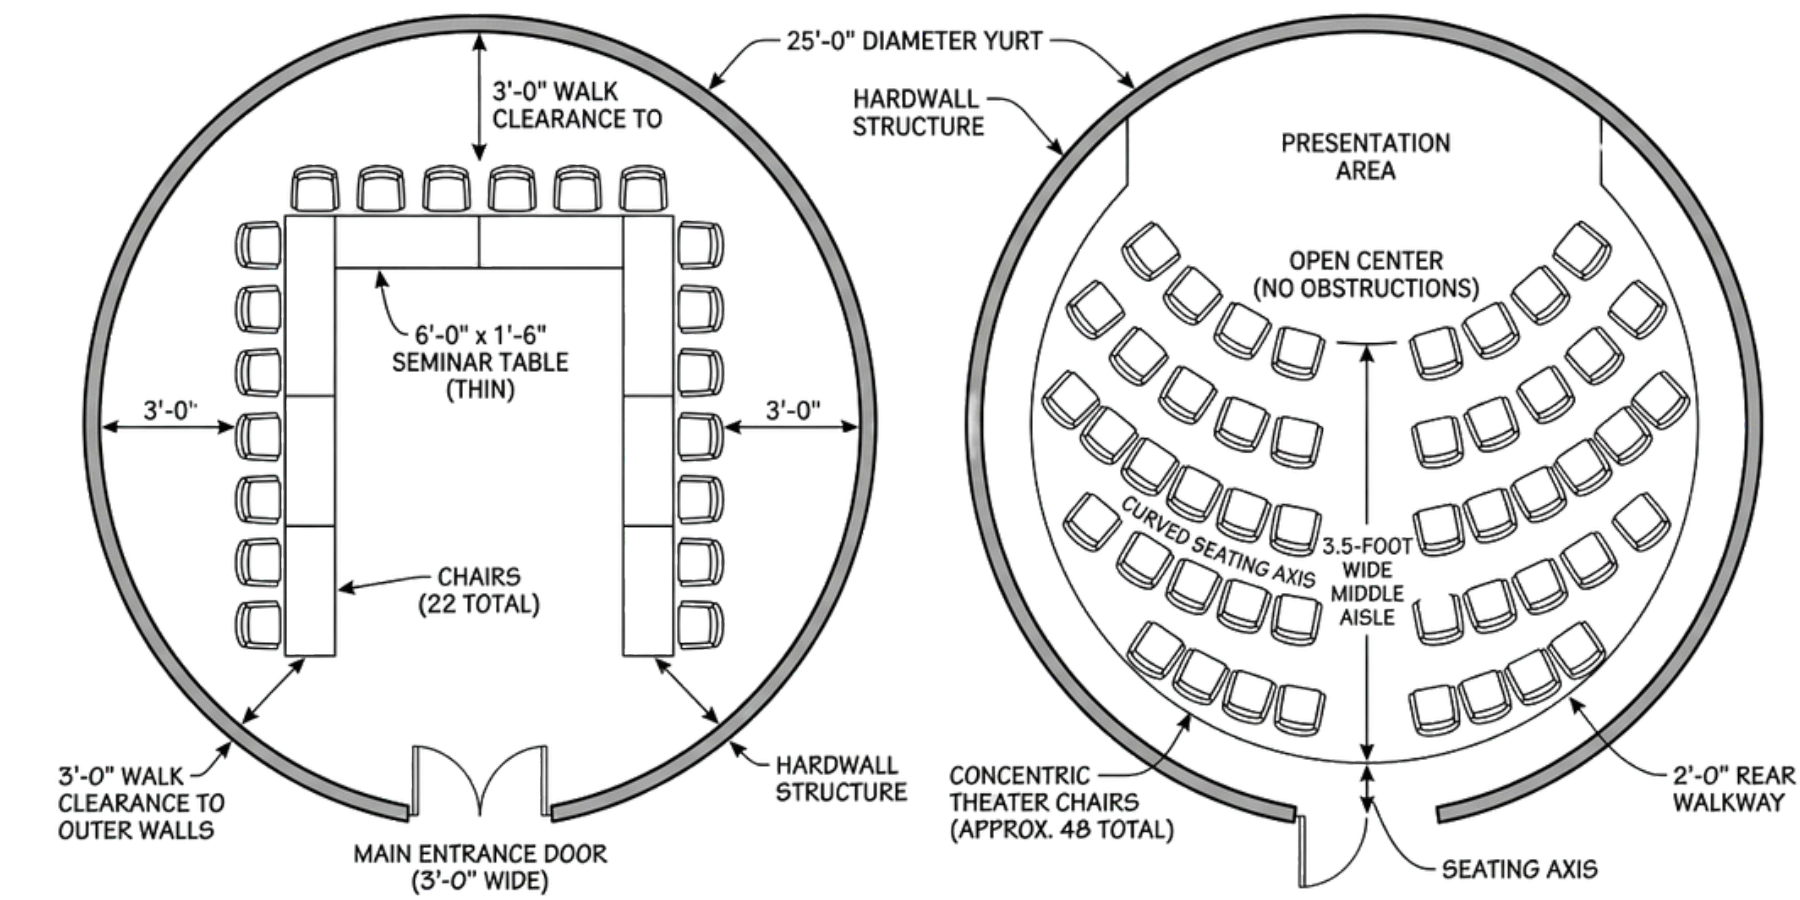
Layout 1



Layout 2

Layout 3



Layout 1: Small Round Tables (Maximum Capacity: 24–32 People)

- This layout maximizes space efficiency for chairs & tables - the outer perimeter paths perfectly mirror the circular yurt wall.
- Four 60" (5ft) Round Tables in a balanced cluster
- Total Capacity: 24 people comfortably (6 per table) or up to 32 people maxed out (8 per table).

Layout 2: U-Shape Modular Layout (Maximum Capacity: 18–22 People)

- If your event requires rectangular surfaces (like standard conference or seminar tables) for laptops, notebooks, or a single speaker focus, this is the geometric solution.
- Three or four narrow 6' x 1.5' (seminar-style) rectangular tables pushed end-to-end to create a wide "U".
- Chairs are lined up only along the outside edge of the U-shape.
- Total Capacity: 18 to 22 people.

Layout 3: Concentric "Theater" Style (Maximum Capacity: 40–50 People)

- Chairs are set up in 3 nested semi-circular rings following the natural curve of the perimeter walls.
- A 3.5-foot center aisle splits the seating down the middle, running straight from the main entryway to the front presenter area.
- Total Capacity: 40 to 50 people. This layout offers the highest physical density while safely respecting building fire escape pathways.
